Down Clues

- 1 Electricity flows through _____ easily. Metals, water and humans are examples of them.
- 3 _____ electric cords can cause shock and fire.
- 5 Electricity always seeks the _____ path to the ground.
- 6 _____ prevent the passage of electricity. They keep the electricity flowing through wires.
- 7 If, due to fire, you must get out of a car with a downed wire on it, never touch the car and the _____ at the same time.
- 12 Don't climb transmission _____, utility poles or substation fences.
- 13 The safest thing to do in an electrical emergency is to call for _____.
- 15 The human body is 60–70% _____.

Electrical Safety Tip

Always stay far away from power lines. If you touch a power line with your body or something you are holding, electricity will travel through you. You could be seriously hurt or even killed.
