Make an Emergency Kit

Extreme weather events are becoming more frequent and severe. These supplies will help you stay self-sufficient if your home loses power and/or water during a weather emergency.

- Three-day supply of non-perishable food per person, can opener and pet food
- Three-day supply of water (one gallon per person per day, plus more for pets)
- Portable, battery-, hand-crank or solar-powered radio
- Flashlights and lanterns (safer than candles)
- Toilet paper, paper towels and hand wipes
- Special needs items, such as medications, items for infants, etc.
- Lighters or matches in a waterproof container
- Fire starter
- Personal hygiene supplies
- Cash (in case ATMs aren't working)
- A whistle to signal for help
- Signaling mirror
- First aid kit
- Extra batteries
- Spare blankets

Electrical Safety Tip

After a Storm

The initial danger may be over, but other hazards may arise. Wear sturdy shoes to protect your feet from debris and broken glass. Stay at least 50 feet away from downed power lines and out of damaged buildings. ALWAYS assume a downed power line is energized. Check electric meters, and report any damage to Xcel Energy.
